RE: COAB Recommendations on:

- Portland Police Bureau should develop and implement an instructional system design model ("ISDM") for comprehensive use of force training to provide a systemic methodology to address its training needs.

The following recommendation was approved by the Community Oversight Advisory Board at its October 27, 2016 meeting as part of its responsibilities set forth in the DOJ-City of Portland Settlement Agreement. On behalf of the COAB, this recommendation is forwarded for your consideration.

Recommendation 102716-4

The Portland Police Bureau should develop and implement an instructional system design model ("ISDM") for comprehensive use of force training to provide a systemic methodology to address its training needs. The PPB's ISDM should rely upon and/or incorporate the Seattle Police Department's ISDM for comprehensive use of force training which reflects best practices and which in DOJ v. Seattle was approved by the Department of Justice and its police practitioner expert, Robert Davis, the former Chief of Police of San Jose and former president of the Major City Chief's Conference.

Thank you for your consideration of this recommendation,

Dennis Rosenbaum, PhD
